EXP10 is an extra light gauge 80/20 Bronze set that utilizes EXP coating for extended lifespan. 80/20 Bronze, the original acoustic alloy introduced by John D'Addario Sr. and John D'Angelico in the 1930s is a popular alloy for recording due to their crisp, deep and projecting tone and appeal to many traditionalists and vintage enthusiasts for their historical significance.

BEAUTY'S UGLY SECRET OVERVIEW FACTS TEST FREE SKINDE STAYT NOW

Show Us Your Cruelty-Free Look

Join the Cruelty-Free Challenge and show us your best makeup looks using cruelty-free cosmetic brands in order to create awareness for cosmetic animal testing.

Beauty's Ugly Secret

Animals are still suffering and dying to test shampoos, soaps and other cosmetic products. Jefferies rabbits, rats, guinea pigs and mice have substances forced down their throats, injected into their eyes or smeared onto their skin before they are killed. Is that worth it to you?

Overview

Imagine a syringe being forced down your throat to inject a chemical into your stomach, or being restrained and forced to breathe sickening vapors for hours. That's the cruel reality of animal testing for millions of mice, rabbits, dogs and other animals worldwide.

32
Syringes in government required tests for each new drug or agrochemical

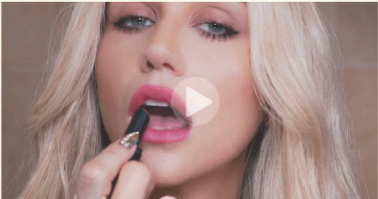

10K
Animals killed for every one possible chemical tested

100%
Agreement required between countries to eliminate a single animal test

Show Us Your Best Looks!

Want to help our cause while looking your best? Join KESHA in our Cruelty-Free Makeup Challenge. Show us your best makeup looks on YouTube or Instagram using brands that have banned animal testing. Click the link to watch videos from famous beauty gurus like Jeffree Star, Chloe Morello, Carlie Ebyel, and more.
